E35068

Cooling jacket for infrared temperature sensors

COOLING JACKET

Application			
Design		for infrared temperature sensors TWxxxx, M30	
Installation		sensor cooling (air or water); (TW)	
Pressure rating		6 bar	0.6 MPa
Mechanical data			
Weight	[g]	493.5	
Materials		stainless steel (304/1.4301)	
Remarks			
Pack quantity		1 pcs.

Cooling jacket for infrared temperature sensors

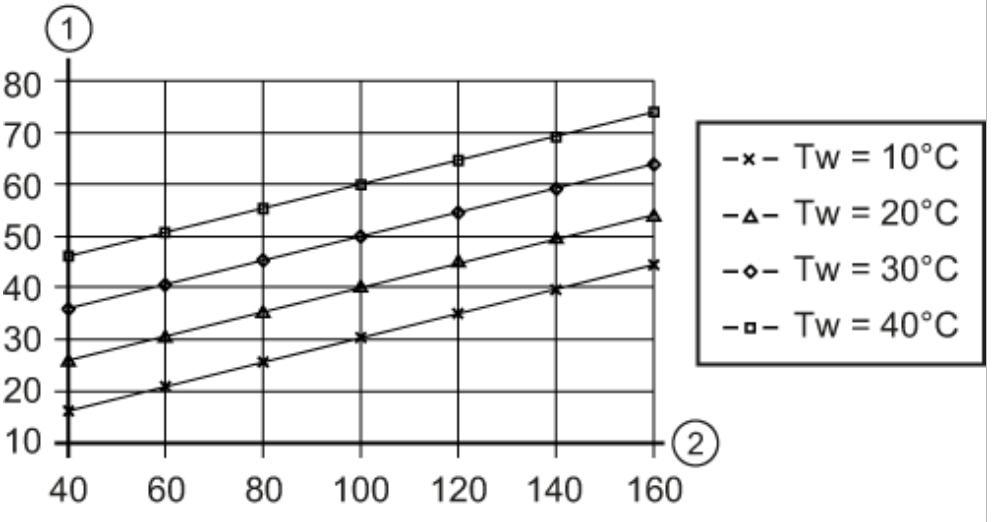

COOLING JACKET

Diagrams and graphs

A.

B.

A Installation

B cooling performance

inside temperature as a function of the outside temperature

Tw = cooling water temperature 1 L/min

1: inside temperature [°C]

2: outside temperature [°C]
